Professional Summary

Frontend Developer with 2 years of experience building production React.js and Next.js applications, with primary depth in an enterprise RAG (Retrieval-Augmented Generation) platform, plus e-commerce and booking systems. Skilled at translating complex data and business workflows into responsive, component-driven interfaces using React, Next.js, and MUI. Comfortable working across the stack when needed – RESTful APIs, authentication (Keycloak), and backend services (NestJS, PostgreSQL) – while owning the frontend end-to-end.

Technical Skills

- **Frontend:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, MUI (Material UI), Responsive & Component-Driven UI
- **Backend / API:** Node.js, Express.js, NestJS, RESTful API Design & Integration
- **Databases:** PostgreSQL, MongoDB, MySQL, Vector Databases (pgvector)
- **Tools & Platforms:** Git, GitHub, Keycloak (Authentication), MinIO (S3-Compatible Storage), Medusa.js, Razorpay Payment Integration, RAG/LLM Architecture

Work Experience

Xoveryn

Jan 2025 – Present (1 Yr 8 Mo)

Frontend Developer

- **Sovereign AI Platform (RAG):** Built the React.js frontend for a self-hosted Retrieval-Augmented Generation platform, developing the file-upload and document-embedding UI that lets users query their own data through an LLM-powered chat interface, keeping all data on-premise for security-sensitive teams.
- Built team-based chat functionality so users can query both personal and shared group datasets in real time, integrating role-based access control via Keycloak to enforce secure, multi-tenant access across teams.
- Connected the RAG UI to a NestJS / PostgreSQL (pgvector) backend and MinIO (S3-compatible) object storage through RESTful APIs, wiring up the full file-upload → embedding → retrieval flow end-to-end.
- Built the company's portfolio website / landing page using React.js, Tailwind CSS, and MUI with a custom glassmorphism UI, establishing a consistent design language for the brand.
- Developed a headless e-commerce storefront on Medusa.js, integrating Razorpay for end-to-end payment processing and order management.

Rabs Net Solutions

Oct 2024 – Jan 2025 (3 Months, Full-Time Internship)

Frontend Developer Intern

On-site

- **Bellavue Holiday Homes (Hotel Booking Platform):** Built the site in Next.js and custom CSS, developing dynamic property listings, availability filters, and a complete booking flow connected to backend RESTful APIs.
- **MIC Luxury Cars (Car Marketplace):** Built an end-to-end car buying/selling platform in React.js, covering listings, search, and inquiry workflows for live production use.
