Professional Summary

Full Stack Developer with 1.6+ years of combined experience building production-grade web applications using React.js, Next.js, Node.js, NestJS, and TypeScript. Hands-on experience designing RESTful APIs, managing relational and vector databases, implementing authentication systems, and building AI/RAG-based data platforms. Skilled at translating business requirements into scalable, well-architected full stack solutions.

Technical Skills

Frontend: React.js, Next.js, HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, MUI (Material UI)
Backend: Node.js, Express.js, NestJS, RESTful API Design, API Integration
Languages: JavaScript, TypeScript
Databases: MongoDB, MySQL, PostgreSQL, Vector Databases
Tools & Others: Git, GitHub, MinIO, Keycloak (Authentication), RAG Architecture, Embeddings

Work Experience

Xoveryn

Jan 2025 – Present (1.3+ Years)

Full Stack Developer

Remote

- **Sovereign AI Platform (Data Sovereignty & RAG System):** Built a Retrieval-Augmented Generation (RAG) platform supporting secure, on-premise data sovereignty; implemented file upload and document embedding pipelines for knowledge retrieval.
- Designed and developed a team and user management module with role-based access control, integrated with **Keycloak** for authentication and authorization.
- Architected the end-to-end RAG pipeline using **React**, **NestJS**, **MinIO** (object storage), **vector databases**, and **PostgreSQL**, enabling scalable document embedding and semantic search.
- **3D Product Showcase Platform:** Developed an interactive 3D product configurator/showcase for furniture and interior products (tables, book stalls, wall-mounted units, laptop racks), allowing real-time customization and visualization.
- **Company Portfolio Website:** Designed and built a company website with a unique, modern *Sleek Glassmorphism UI* using **React.js**, **Tailwind CSS**, and **MUI**, focused on brand identity and performance.

Rabs Net Solutions

3 Months (Full-Time Internship)

Full Stack Developer Intern

On-site

- Developed a car buying and selling platform (**MIC Luxury Cars**) end-to-end using **React.js**, covering listing, search, and inquiry features.
- Built a full-featured **hotel booking website** using React.js with dynamic booking flows and responsive UI.
- Handled complete full stack development for live production projects, including **backend API design** and **database management** using Node.js/Express.js and SQL/NoSQL databases.

Education

Tilak Maharashtra Vidyapeeth, Pune
